Douglass High School earning an "A" letter grade, schools seeing statistically significant increases in math fluency, literacy results putting KNOS at the top performer in growth across all KIPP networks, TNTF data reflecting strong school Academic programs were also highlighted, including the THRIVE, robotics, and debate.

Current Landscape and Context

Ms. Kalifey-Aluise shared an update about the current population (and revenue) decline across the city which is significantly impacting enrollment declines across schools in New Orleans and referenced several recent articles that support this. Estimates suggest that

thousands of seats much be removed from the system to restore sustainability. In addition, high student mobility undermines stability, achievement, and school culture. Other challenges include federal funding losses, stagnant state MFP funding, rising costs, and city-wide fiscal instability. Ms. Belcher shared examples from other KIPP regions that have either closed or merged schools due to similar concerns.

Executive Session

At 10:25 a.m. Ms. Willis introduced a motion to address a legal matter in an Executive Session. A motion to approve was made by Mr. Washington and was seconded by Mr. Balascio. The motion passed by a unanimous voice vote.

The board returned to the regular session at 12:48 p.m.

School-by-School Scorecard

With the remaining time Mr. Purvis presented the KNOS School Performance Report Card, asking board members to read and share their outstanding school-specific or general KNOS questions. Members engaged in a conversation about schools and heard about a few highlights as well as challenges across campuses.
